“ Curt and I worked together during his last 4 years at Chevron. I got to know him as a very kind, jovial, diligent, and uplifting man such that I always found ways to work with him. I missed him very much when he retired and deeply miss him now that he is in a better place. He left a mark on my life and to this I say:

Now you fly unencumbered by the boundaries of life,  
Now see all things outside of your physical being,  
Rest my friend - rest in peace.

“ I just learned of Curt's passing.  
He was one of the most uplifting and positive coworkers that I had the pleasure to work with. He fine tuned many of my hand drawings of machine parts in to precision drawings and I always look forward to talking with him about old movies and world events.  
I will always remember the Friday's when Curt would where is old faded AC/DC shirt,I will miss him.

“ I am sadden to hear about the passing of Curt. I worked with Curt at Chevron Energy Technology Co. (ETC) on many equipment P & ID updates for the Distillations Processing and Specialties Team. He was very smart, knew his stuff and always had a good sense of humor. I was a season ticket holder with the Forty Niners for many years when they played at Candlestick Park. He would always ask me if I had extra tickets for the games, I told him I would keep him in mind when I did. I knew Curt loved the Forty Niners so the first chance I had extra tickets I offered them to him. He accepted and took his son to the game. I'll never forget the glow in his eyes when I told him I had tickets for him. He told me afterwards he had the time of his life at the game. My prayers go out to the family. He is in a much better place.

“ So sad to hear of Curt's passing. We worked on the PU87 campaign together from day 1. Curt worked 2 years on the project and his P&ID's we impeccable (all 30 revs). I missed him when he retired...great guy to work with, and hang out with at the IC and Chevron functions. He'll be missed.

“ During his last few years at Chevron, Curt was a regular yoga-buddy with me and several others. He was always cheerful, considerate, and had a great sense of humor. We remember how excited he was to become a Grandad and I'm glad he had some time after leaving work at Chevron to spend more time with his family. My life is richer for having known Curt.
