Great guy, very skilled at whatever he attempted. He worked hard for Mountain View Cemetery and did a wonderful job for hundreds of families. He certainly was a kind and considerate person and respectful to all he came in contact with. He will be remembered by many for his great personality and kindness. RIP Denny. - John Martin

“ *I was listening to music today and thought of Denny. I went on many wild camping trips with him and a bunch of people, when I was 17-21. I remember lots of guns!*

The song today was Light my Fire. I remember being in the truck, barreling into Redwood Park, with that song blaring. He was an incredible person. Indelible in my memory. I did not know that he had died until today.

Great guy. Loved his children and was a good friend. He worked at Mountain View Cemetery in Oakland and retired from there before moving to Benecis. A very skilled cemetery worker and extremely good union member who represented his coworkers very well in contract negotiations between Local 265 and Mountain View Cemetery's management team. Great to hang out with, a very good man!!!! Rip Denny.

“ *Sad to hear about Denny passing. He welcomed my children to play in his beautiful garden anytime. Denny and I would share a cold one and talk about life. We enjoyed our time with him and he is missed.*

Condolences to his family and friends.
