“ Once when I was about ten years old I held the flashlight in a driving rainstorm so Frank out of his goodness could get electricity for the Valdez family in the middle of the night!! That man literally had a heart of gold! Knowing him as we got old was a honor! Bless his family! A true Niner faithful!

So long my proud brother. Although I came into your life late in life from an unexpected direction, you embraced me with acceptance and love. It was impossible to have a short phone call with you and I looked forward to those hour epics where we recounted our Little League careers I tried to convince you Buster Posey was fine with his RBI totals batting 3rd. But my best memory was the day when we jumped into your van and you took me all around Benicia and you stopped to show me every building that had any tie to you and our father. Just driving down the street, cars and pedestrians would stop you to say hello and you would introduce me as your newest brother - a four hour tour that changed my life. Now it's time to rest, Your circle is complete. The world is a better place because you were in it. Love you

Frankie was such a doll!! He did all of our electrical work for years!! He was such wealth of Benicia knowledge!! If you played Little League with him and wondered what the score was or who hit a certain home run in a particular game- ask Frank!! He would know!!!! LOL . He will certainly be missed- so smart, so funny..... my heart goes out to his family and all of us that knew him!!
