“ It's been six years, already. That is hard to believe. It seems like forever. I know you're in a better place, and are with many of our family members. I miss you so much. I love you dearly brother. I think of you often, especially when that song by Rundgren plays. I cry when I hear it. Or one of the Doobie Brothers songs. But, I think of the fun times we had, and that always brings a smile to my face, like now, I'm smiling.

“ May God give your family the strength & peace they need to get thru this sad difficult time losing you and for the days ahead adjusting to life without you here with them. I remember you and your family from East H neighborhood. May you rest in peace, God Bless you and your family.

Wow! Totally bummed to hear about Jeff, he's the coolest, always really an even keel guy, great guitar player also. Last time I saw him downtown we actually talked about just being cool and have a good time until we die, sure didnt think it would come that soon, the Shermans have had more than its share of tragedy, that just really bites!
