“ *Lorrie, I am so sad to hear of her passing. I have the fondest memories of her from BHS. She was one of the main reasons I stayed on campus most of the time ..... and graduated! She was an expert at happening upon students (or hunting them some might say) as they were attempting to ditch school for the day and corralling them to ensure they would go back to class. Without her I would have missed way too many days of school and I would not be where I am today. She also looked after the kids and made sure the high school was a safe place for us, she didn't let anyone in or out lol. I hope her spirit is happy and at peace <3*

“ *Sending so much love and prayer to Lori's family. My first memory of her was when I was a student at BHS, and she would remind us to keep our distance by yelling "No PDAs!" Honestly, I was a little scared of her. 😂. I got to know her better when she was a colleague. Her joy for life was always apparent, and she was quick to share a story, book, or advice to any who had the need, or the time. She will be missed.*

besties and I will forever miss her laughter,  
love, and friendship. I am so happy that the  
last few years you discovered the lord and  
followed him wholeheartedly. You are now in  
his arms and you are flying with the angels yelling yippee. Thanks  
for all the wonderful memories that I have of our friendship. Rest in  
peace my dear friend. I will miss your spirit , smile, and laughter.

“ *Lorrie always showed up at the right time when Mr. T was making his wonderful foods. She always was so happy to get a "bite" and so thankful and then she was right back to business with the students. She was always easy to talk to, and I know the students found her so available to listen to any needs they had at any time they had. God bless her, she was a force at BHS.*
