“ *To Richie's Family,*

I am saddened to learn of Richie's passing. He was always a lively spirit and a fun friend when he comes through my grocery line. When I was in Social Security one time, he purposely called out my name and allowed my waiting time to 'speed-up' during one of my visits. Richie spoke to me briefly over the years when he comes through my line and I got to know him and appreciate his cheerful spirit. My prayers for his family.
